# Looking for more information about the programs we offer?

Check out our Online Program Guide by scanning the QR code  
or visiting [wpwagneropenhouse.ca](http://wpwagneropenhouse.ca)

Art	Students will gain the knowledge and skills necessary to compose 2-Dimensional artworks through the use of a wide variety of drawing and painting media. <i>Approx. cost \$65.00</i>
Barbering	Students will explore introductory barbering techniques including hair and scalp care, various haircutting techniques using shears and clippers, as well as facial grooming techniques. <i>Approx. cost \$150</i>
Computer Science	Students learn Visual Basic, the easiest and most productive program for creating Windows applications and understand the fundamentals of coding, robotics and video game design. <i>Approx. cost \$10</i>
Construction	Our construction technology program explores traditional hand and power tool woodworking techniques used in building furniture. <i>Approx. cost \$80.00-100</i>
Cosmetology	This course introduces you to different aspects of the hair stylist industry beginning with personal hygiene and grooming, then exploring different hair and scalp care techniques. <i>Approx. cost \$40.00-100</i>
Cosmo & Esthetics Combo	Students will explore different areas of the hairstylist and esthetics industries. Students will learn personal hygiene and grooming, different hair and scalp techniques, as well as skin care, manicuring, hair removal, and makeup applications. <i>Approx. cost \$95</i>
Digital Audio	Through hands-on training the students discover a wide range of recording and production techniques while also building their musical knowledge and skills in aural training, composition, arranging, critical listening, and music theory.
Drama	This course includes studying the disciplines of movement, speech, acting, and theatre studies and places great emphasis on the development of the student as creator, performer, and critiquer.
English Language Support (EAL)	This course is designed for English as Additional Language learners to assist them in developing their academic English Language skills to improve literacy and communication in social environments.
Fashion Studies	Students learn to sew basic garments and accessories as well as design and pattern drafting. <i>Approx. cost \$40</i>
Food Studies	Students prepare a variety of nutritious recipes, developing and/or enhancing their skills in cooking and baking, time management, safety, sanitation, food presentation, problem-solving, and teamwork. <i>Approx. cost \$90</i>
French	Building on prior knowledge, students will have an opportunity to improve their vocabulary, listening, speaking, reading, and writing skills.
Game and Graphic Design	Participants in this course will leverage industry-standard tools to create versatile digital designs. Whether they're diving into video game development, crafting print graphics, or designing digital media, students will generate visually captivating content that communicates impactful messages with effectiveness. <i>Approx. cost \$20</i>
Guitar	Students learn such skills and techniques as fingerpicking, strumming, chording, music reading, blues patterns, and improvisation. <i>Approx. cost \$5</i>
Japanese	This course provides students with the language, grammar, and vocabulary skills needed to read, write and speak Japanese in an authentic context
Leadership	The Student Leadership course focuses on topics such as qualities and roles of leaders, communication skills, conflict resolution, team dynamics, team building, and global citizenship through school-wide events, volunteering opportunities, and mentorship experiences. <i>Approx cost \$25</i>
Music (Band)	Students have the opportunity to participate in concert band, jazz band, choir, and various small ensemble settings both within the regular schedule as well as offered after school.
Natural Science	Students use project-based learning to explore topics like greenhouse care, landscaping, indoor plant care, integrated pest management, hydroponics, aquaponics, and floral design. <i>Approx. cost \$40.00</i>
Photography	Students unleash their creativity in and out of the classroom and hone their technique both with supplied mirrorless cameras and editing software like Adobe Photoshop, Lightroom, and Premiere. <i>Approx. cost \$10</i>
Pottery	Students will gain the knowledge and skills necessary to build functional and decorative pottery using hand-building and wheel-building techniques. <i>Approx cost \$80.00</i>
Punjabi	This course provides students with the language, grammar, and vocabulary skills needed to read, write and speak Punjabi.
Robotics and Engineering	Confronting real-world challenges, students will tackle problems directly by employing engineering and robotics frameworks, employing the design thinking process to devise effective solutions. This hands-on approach involves the application of code, electronics, and various technologies, guiding students in the creation of both digital and physical solutions. <i>Approx. cost \$65.00</i>
Sports Medicine	Students learn about human anatomy, injury prevention, immediate injury care, injury assessment and rehabilitation. <i>Approx. cost \$100</i>
Sports Performance	Students learn and practice the fundamentals of athletic training. Topics include group training, nutrition, sports psychology, and testing protocols for high performance. <i>Approx. cost \$125</i>
